CARE CLOSE TO HOME, WHERE FAMILIES ALREADY LIVE

ATCO Properties & Management is building a pipeline of assisted living and memory care communities in the suburbs of New York, New Jersey and Connecticut, drawing on what RiverSpring Living has shown in Riverdale: care in one place, land held for the long term, mission ownership where it matters, and a hospital partner close by.

The open question is demand: about 30% of unmet demand against a 10–15% lender norm. A market study comes before any LOI.
