MARKET STUDY: TRUMBULL

Former Oxford Health HQ (Rivers Edge) · Fairfield County, CT · 193 units (103 IL · 60 AL · 30 MC) · 17.6 acres

Finding: Supported for a life-plan campus. The Trumbull market's 75+ base is comparable to Florham Park's, incomes are lower, and AL/MC penetration is moderate. The 90 AL/MC units need about 14% of unmet demand at a 10% need rate (10% at 12%), inside the lender band. The 103 IL units need about 13% of income-qualified IL demand. The demand case holds; the conservative case is tighter (about 49% AL/MC capture), and Connecticut capacities are estimated because the state publishes no machine-readable unit counts.

1 · PRIMARY MARKET AREA

About 7-8 miles (15-20 minutes) along Route 8, Route 25 and the Merritt: Trumbull, Monroe, Easton, Shelton, Fairfield, Stratford, north Bridgeport and south Newtown. Route 25 and Route 111 run straight through the site; Route 8 ties in Shelton and north Bridgeport; the Merritt Parkway brings in Fairfield. Only the north end of Bridgeport and the south end of Newtown are counted.

TOWN	POPULATION COUNTED	75+ (EST.)	65+ HOUSEHOLD MEDIAN INCOME
Trumbull	36,827	2,528	$91,476 06611
Monroe	18,825	1,292	$97,386 06468
Easton	7,605	522	$201,923 06612

Newtown (south half) (50%)	13,586	933	$104,083 06470
PMA, town method	**283,608**	**19,470**	**$85,592**

Population: 2020 Census, rounded. 75+ by town is the county's 75+ share applied to town population, which understates affluent suburbs. 65+ medians: ACS 2024 5-year by ZIP, weighted by estimated 75+ population.

2 · AGE 75+ DEMOGRAPHICS AND INCOME QUALIFICATION

Age 75+ in the PMA (town method × 1.49 calibration)	**29,063**
Conservative case: town method, uncalibrated	19,470
75+ households (0.67 per person)	19,472
Share of 65+ households with income ≥ $75,000 (≥ $100,000 · ≥ $150,000)	55% (44% · 31%)
Income-qualified 75+ households (≥ $75,000, before home equity)	**10,667**
IL-qualified 75+ households (≥ $100,000)	8,641

Census tract tables could not be pulled for this study, so 75+ counts are scaled from the town method by the ratio observed at Florham Park (1.49x), where both are available. Income shares come from ZIP-level 65+ medians, converted with an income spread calibrated to Florham Park's tract data (it reproduces 61.9% at $75,000 within half a point). A $75,000 floor with home equity supports roughly $9,000–10,000 a month of AL for 4–5 years in markets with $550,000+ home values.

5 · DEMAND, PENETRATION AND CAPTURE

	BASE	CONSERVATIVE
AL/MC demand at a 10% need rate ÷ 75% PMA share	1,422	953
Less existing and counted pipeline	−770	−770
Unmet AL/MC demand	**652**	**183**

Capture at a 12% need rate	10%	24%
Penetration today (existing + pipeline ÷ qualified households)	7.2%	
Penetration with this project	8.1%	

Benchmarks: lenders want project capture under 10–15% for AL/MC and treat over 25% as a red flag; AL penetration of 6–10% of qualified households is typical of mature markets. The conservative case uses the uncalibrated town method.

NEED RATE (SHARE OF QUALIFIED 75+ HOUSEHOLDS NEEDING AL/MC)	8%	10%	12%	14%

6 · INDEPENDENT LIVING DEMAND (LIFE-PLAN CAMPUS)

IL-qualified 75+ households (≥ $100,000 income, before home equity)	8,641
IL demand at 10% (12.5%) propensity ÷ 65% PMA share	1,329 (1,662)
Less existing IL / CCRC units in the market (est.)	−510
Capture needed for 103 IL units	**13% (9%)**

IL supply: The Watermark at 3030 Park (CCRC) 250 (est.); Wesley Village (IL) 120 (est.); Maplewood at Southport (IL) 40 (est.); Brightview Shelton (IL) 40 (est.); Monarch Spring Meadows (IL) 60 (est.). Lenders look for IL capture under 15–20%.

8 · ABSORPTION

As an entrance-fee campus the test is presales, not monthly move-ins: 70% of IL units reserved with deposits before construction. The 24-month rental lease-up in the model (about 4 IL and 3.5 AL/MC a month) applies only if the campus is run as a rental, which does not clear the hurdle. Implied pace for the AL/MC wing: about 3.4 net move-ins a month to 91% occupancy in 24 months.

9 · FINDINGS AND NEXT STEPS

- Class A AL lists at a median of $8,963 (Sturges Ridge $11,180, Maplewood at Southport $9,475). The model's $9,680 is 8% above that median, which is inside the 15–20% premium CBRE says new product needs.
- 65+ incomes vary widely: Easton ($202,000) and Southport ($133,000) at the top, north Bridgeport ($60,000) and south Stratford ($54,000) at the bottom. An entrance-fee campus draws on home equity, so median home values matter more than income here.
- No approved-but-unbuilt AL/MC pad was found in the market. The approved Rivers Edge program at this site is the only pipeline item; its approval validity still needs to be confirmed.

1. Confirm with Trumbull P&Z that the 4-1 approval is still valid.
2. Get unit counts for the 11 competitors from CT DPH (elicense lookup) or a NIC MAP / CBRE study.
3. Test presale depth with a nonprofit sponsor's priority-list campaign.

METHOD, SOURCES AND LIMITS

Demand follows the standard AL/MC method: income-qualified 75+ households × share needing help with daily living ÷ share of move-ins from the PMA, less existing and pipeline competitive units (see /method). National context: NIC MAP reports senior housing occupancy above 90% in 3Q26 and the fewest units under construction since 2012; CBRE's H1 2026 survey puts Class A AL cap rates at 6.5% and says new development needs rents 15–20% above market. **NIC MAP PMA data (property-level occupancy, rents and pipeline) is not available to ATCO**; occupancy above comes from New York State DOH filings where they exist. CoStar was not used. Census API access was not available, so 75+ counts outside Florham Park are estimates calibrated to Florham Park's tract data. Every [est.] figure should be replaced by a NIC MAP pull or a third-party study before LOI. ATCO is not affiliated with RiverSpring Living; RiverSpring is referenced only as the inspiration for the program.
